

The TINY TOTS classroom at Easthampton High School has been an active part of the community for over thirty years. High school students enroll in the courses to obtain valuable opportunities which help improve their skills and knowledge of child development in an actual preschool setting.

At TINY TOTS, children learn to play, work, communicate and develop basic skills which contribute to their readiness to enter Kindergarten. Theme based units introduce children to number and letter recognition, and promote both math and language literacy skills. Throughout the day, children are given opportunities for singing, art activities, play, movement, stories and sharing.

The TINY TOTS class takes two annual field trips a year. In the fall they travel to Southampton to Fletcher's Farm and in spring they have the pleasure of heading to Lupa Zoo in Ludlow. The field trips are a great experience for the children which inspire discovery and excitement.

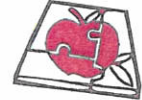

At TINY TOTS we...

- Help children develop skills needed to interact with others, work toward a common goal, cope with conflict and express feelings.
- Expose children to a wide variety of books, stories and writing experiences. This helps in developing their early literacy skills.
- Assist children in developing a positive self concept and build self esteem.
- Provide children with a range of cooperative play activities that promote effective communication.
- Stimulate children to utilize reasoning and problem solving skills.
- Develop an awareness and coordination of their body through both large and fine motor activities.
