

**Smile Massachusetts... The Mobile Dentists
are very excited to be coming to your child's school on**

April 22nd - April 26th, 2019

How Smile Programs Works:

Smile Programs' dental team provides an examination or screening, dental cleaning, fluoride treatment, x-rays and sealants. Additionally, they can provide dental services that may include: fillings, simple extractions of baby teeth, and other minimally invasive procedures. Medicaid and most private insurances are accepted. Grants are provided for preventive services to children in need. **No child is ever turned away for lack of resources.**

Our dental team consists of a locally licensed dentist, hygienist and dental assistant. Each child is out of class for approximately 30 minutes and will receive a report card detailing his/her dental check-up, along with a new toothbrush to take home. Signed consent includes the initial dental visit and follow-up visits.

Taking care of your child's teeth is important to keep them healthy and in school!
