

Maple Elementary-Middle School School Building Committee Update

February 25, 2020

Project Status: Maple Elementary – Middle School

Recent Activity

- Grade of building footprints for B & C are being raised with structural fill.
- Excavated drainage pit, and installed drainage piping and stone at bottom.
- Lower area of rotary being raised to grade.
- Removed the field lights, Eagles football trailer and scoreboard.
- Fontaine and Colliers job trailers put in place, powered and furnished.
- Trenched and installed conduit for temporary power to existing school.
- Completed widening of south driveway & addition of walkway fence. Prepped play circle.
- Widened and striped south parking lot, installed signs and painted crosswalk.
- Abated transite pipe at running track perimeter.

Looking Ahead

- Trucking-in of fill and building up structure grades will be on-going in school and at rotary.
- Site utility (sewer & drainage) work.
- Trenching, forming and pouring concrete footings.
- Relocate press box
